

TRAYSIKEL RIDE or DIE

Cross steel against colonizers and survive the darkness in this high-octane fantasy motorcycle adventure!

Traysikel is a dual-pamphlet system-agnostic fantasy motorcycle adventure for 1-4 Players and 1 GM. Your rebel cabbie must ferry a Babaylan fugitive across the jungle mountain on a tricycle taxi! Battle nightmarish monsters while navigating the island's violent colonial occupation and its brewing revolution. This fast-paced, point crawl module features tricycle customization and unique travel rules to give a "motor-cycle diaries" style journey across a horror/fantasy setting within a fictional Philippines.

Traysikel draws its themes from 400 years of imperial colonialism in an alternate reality where indigenous magic and monsters still dominate the archipelago. This zine was created in participation With ZineMonth 2023 & Tabletop Non-stop 2023.
